

Technical specifications and functions

Visible components of the sectioned engine model:

- Engine block
- Head and valves
- Crankshaft
- Connecting rod
- DOHC dual overhead camshaft (camshafts, valves, valve lifters, water pump and etc.)
- Pistons with rings
- Timing chain with camshaft sprocket and tensioners, oil pump
- Alternator belt with tensioner

Cutaway model is designed to demonstrate:

- Piston, rings, combustion chamber, intake and exhaust ports, DOHC components, injector and glow plug positions in a combustion chamber;
- Operation of the DOHC mechanism by turning the crankshaft*;

*Training cut away model is not suitable for intensive rotation. All rotating parts must be lubricated before the rotation.

Timing chain and alternator belt replacement

The educational cutaway engine model contains all elements of the original car: timing chain, tensioners, alternator belt, crankshaft sprocket and etc. Using instructions and recommendations it is possible to demonstrate chain replacement procedures. Torque measurements of the components can be performed by using special tools.

Other

- Minimal space for training and storage
- Minimal weight in order to avoid additional transportation or mounting stands. Demonstrations can be performed on any workbench or tool trolley
- Cross-section of the trainer is protected with safety plastic protection
- The training model is equipped with fasteners
- Dimensions approx. (HxLxW): 750x670x440 mm
- Nett weight approx.: 81 Kg
- Made in EU

Order no: IVDB02
